BAY WINDOWS

Add classic styling to your home with a bay window. Bay windows add grace and charm to any home's exterior while providing elegance and spaciousness to any room.

ALL BAY WINDOWS FEATURE:

- Multi-chambered frame and sash construction for ultimate energy efficiency.
- Specially formulated, maintenance-free vinyl construction means no painting or puttying-ever.
- 7/8" thick insulating glass units with Warm Edge Technology reduces outside noise and delivers excellent thermal performance. Also available with LowE and other high performance glazing options.

BOW WINDOWS

Bow windows add a dramatic touch to your home. Our bow windows make that special room in your home brighter and more inviting.

ALL BOW WINDOWS FEATURE:

- Extra thick vinyl sash and frame with fusion welded corners provide significantly greater strength than other vinyl windows.
- Special multi-point locking design allows the windows to have an uncluttered look with one-handle operation.
- Furniture-grade oak heavy duty head and seat boards for exceptional strength, beauty and durability.
- Custom made to your exact width and height requirements in 3, 4, or 5 lite combinations.
- 7/8" thick insulating glass units with Warm Edge Technology.

Add Dimension to Any Room

GARDEN WINDOWS

Enjoy growing and displaying plants and flowers year-round with a garden window from Acme Windows. Perfect for the kitchen, or any room that needs extra light.

ALL GARDEN WINDOWS FEATURE:

- Trim profile design maximizes the glass area for a better, brighter view.
- Special design box-section sub-frame provides extra strength for lasting durability.
- Fully-operating trapezoid side casement windows that allow more daylight in and provides better ventilation.
- Window hinges against wall surface to give full air circulation.
- Special single-lock mechanism with heavy duty weather stripping make an exceptionally weather tight and secure window that stands up to the most inclement weather.
- Options include: laminated or insulated head & seatboard, high performance glazing options, tempered shelf, and optional glass shelf.
- Garden windows project nearly 20" out and can be made up to 6 feet wide and 4 feet high.
- 7/8" thick insulating glass units with Warm Edge Technology.
