Series-1000

Vinyl Double Hung Windows

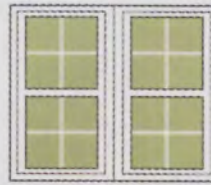

Economical • Maintenance Free • Energy Efficient

Configurations

Double Hung

Twin Double Hung

Picture w/ Double Hung Flankers

Solid fusion welded vinyl frame and sash for strong, seamless corners. Corners not compromised with knock outs or gaps.

Stainless steel True-Position® Balance System
Sash operate easily, quietly and never slip.

Both sash tilt inside the home for easy cleaning.
Recessed tilt latches operate easily.

Sash limit locks allow secure partial opening.

Heavy duty sash locks with cam action lock and keeper for secure, air tight lock

Intercept® Warm-Edge insulated glass optimizes thermal performance and reduces condensation.

Full, continuous over and under interlock at meeting rails reduces air infiltration and condensation. Many competitors notch out interlock at sash lock which sacrifices the seal.

Heavy duty weather stripping

Extruded lift rails are part of sash extrusion, not added later.

Fiberglass mesh half screen with aluminum frame
Optional full screen and/or aluminum mesh

Sloped one piece sill is designed for positive water drain-off.
There are no "weep holes" to plug up, as in many competitors' windows.

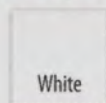

Energy Saving Options

Low-E coating / Argon gas fill reduce home heat loss and ultraviolet light damage.

Foam Filled main frame

Polyfoam wrap, all four sides
